Benefits of keeping a full Queue

To get the most out of your membership, be sure to always have a wide selection of available titles in your Rental Queue. Having a full Queue means we can always send you movies, so you'll always have DVDs at home to watch!

Some guidelines we recommend for our customers:

- 
1. Always have at least twice as many movies in your Queue as your program size.
 2. Always have at least as many "Available Now" titles in your Queue as your program size. This allows you to return all the movies you have at home and receive a complete set to replace them.

Remember, if a title in the top spot is out of stock, we'll send your next available in-stock title. This way, you'll always have great movies on hand!
